

## PRODUCT INFORMATION SHEET: SLP – MER L12

### Description:

|           |                    |
|-----------|--------------------|
| Color     | : Green            |
| Length    | : 2000 mm          |
| Width     | : 40, 50 or 500 mm |
| Thickness | : 12 or 25 mm      |

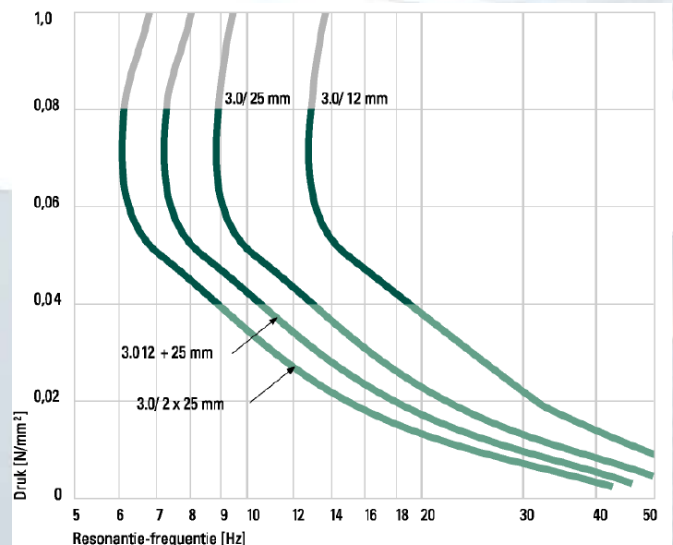

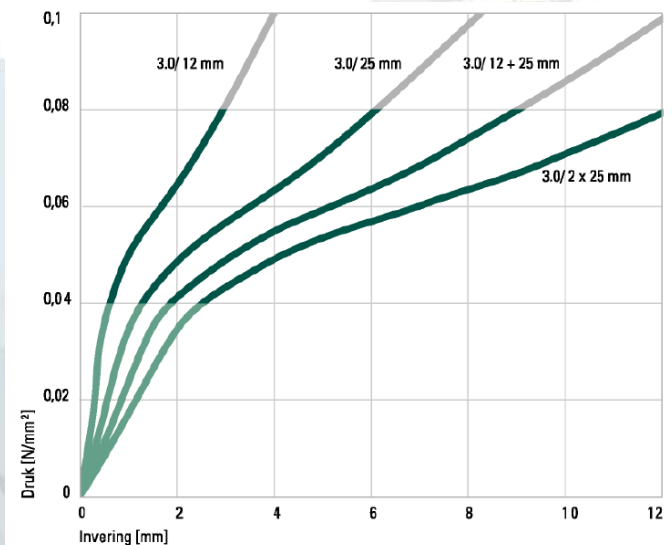

### Description:

SLP – MER L is elastomeric polyurethane used as vibration insulation in marine, yacht building and construction.

### Physical properties:

- Operation load : 0 – 0.08 N/mm<sup>2</sup>
- Static load : 0 – 0.04 N/mm<sup>2</sup>
- Load peaks : 2.0 N/mm<sup>2</sup>
- Density : 300 kg/m<sup>3</sup>
- Mechanical loss factor : 0.22 DIN 53513
- Flammability : B2 DIN 4102
